30 Years of Adventure A Note from Our Founder

Thirty years ago, Horizon Motorhomes began with a **simple dream**: to turn a lifelong passion for travel and camping into a business fuelled by energy and heart.

Our journey started in the late 1980s in a humble workshop, converting classic vans and ex-ambulances into **homes on wheels**. As vehicle technology evolved, so did we. Today, we are proud to craft over 80 high-quality motorhomes each year, utilising state-of-the-art Mercedes-Benz Sprinter and Fiat Ducato models **specifically engineered** for the Australian landscape.

This success belongs to our incredible team of over 20 skilled professionals and, most importantly, to you: our loyal customers. Being named **“Manufacturer of the Year”** three times by the CCIA and receiving the RVMAP People’s Choice Gold and Silver awards is a testament to the community we’ve built together.

Thank you for choosing us to be part of **your journey**. We look forward to seeing you in our showrooms or passing you on the open road.

Happy 30 Years!

Clayton Kearney - Owner & Founder of Horizon Motorhomes

Experienced craftsmanship

Since 1995, our team of master craftsmen in Ballina have **hand-built** every motorhome with precision and care. By using only the finest materials and construction techniques, we create a high-quality “home away from home” that is specifically engineered for the unique challenges of the Australian road.

Passionate about quality

Our passion for excellence has earned us a place in the **Hall of Fame** as a multi-award-winning manufacturer. We refuse to compromise on the luxury, safety, and reliability of our builds, ensuring every Horizon motorhome we produce exceeds the highest standards of the Australian RV industry.

The roads have changed. Our commitment hasn't.

Every Horizon build begins with a conversation.

Before we pick up a tool, we find out what “home” means to you, ensuring every detail is tailored to your unique lifestyle.

What does 'home' mean to you?

Before we start the build, we want to understand what's important to you. We focus on the small comforts and the big dreams that make a space feel **truly yours**.

The Considerations

Your Pace

Are you dreaming of spontaneous weekend escapes or the slow, steady flow of the 'Big Lap'?

Your Sanctuary

Do you seek the comfort and community of caravan parks, or the quiet freedom of remote, off-grid camping?

Your Path

Will you be chasing the **horizon** on smooth sealed roads or exploring the character of rugged off-road tracks?

Your Companions

Is a **four-legged friend** joining the adventure?

Your Rituals

Is that perfect **morning coffee** setup a non-negotiable for your start to the day?

Your Space

How much personal space do you need to feel completely **at ease** and comfortable in your surroundings?

Your dream, our craft. Let's start the build.

Horizon Fiat Motorhomes

The Fiat Ducato is the perfect canvas for our motorhome range, offering a wide, stable stance and a car-like driving experience. Known for its reliability and efficiency, it's the choice for those who want ease of movement without sacrificing space.

A Perfect Canvas

Built into the Fiat Ducato high roof vehicle, our Fiat range offers a wide body that creates an immediate feeling of space. It is the **ideal foundation** for our craftsmen to create a layout that feels open, airy, and functional for your life on the road.

Effortless Versatility

With an 8-speed automatic gearbox and advanced safety features, the Fiat provides a high-performance experience that feels more like a car. Its **modest length** makes manoeuvring and parking effortless, offering class-leading versatility.

Efficient Exploration

The Fiat Ducato is synonymous with efficiency, featuring a high-performance engine for an outstanding and **economical driving experience**. Whether on a weekend getaway or a long expedition, your journey remains smooth and comfortable.

Horizon Mercedes Motorhomes

**Real
Adventure
Time**

The Luxury Standard

Built on the Sprinter chassis, our Mercedes-Benz range features a 9-speed automatic gearbox and class-leading safety. It is engineered for an unsurpassed user experience, ensuring every journey feels like driving a luxury car.

Built for exploration without boundaries, our Mercedes-Benz 4x4 range combines rugged off-road technology with total comfort. Transition from highway to remote landscapes with superior ground clearance and all-wheel-drive confidence.

Off-Road Freedom

Go where standard motorhomes can't. Our 4x4 range features "torque-on-demand" for variable power and maximum grip. Whether on slippery tracks or coastal roads, you can explore the landscape with absolute confidence.

Tailored Innovation

Available in MWB and LWB options, the Mercedes-Benz allows for incredibly varied and spacious layouts. From advanced All-Wheel Drive to refined interior height, every detail is innovated to support your unique adventurous lifestyle.

Ready for your next adventure?

Choosing your Horizon is an invitation into a **community of like-minded explorers**. For **30 years**, we have listened to the stories of our owners, using their adventures to refine **every detail** of our builds. We do not just build motorhomes, we build the **backdrop for your greatest memories**.

Excellence in Craft

"After months of comparing different manufacturers, the choice was clear. The workmanship is excellent and you can tell these motorhomes are built by people who actually live the lifestyle." Donald & Lorraine

We believe the **true test** of a motorhome isn't on the showroom floor, but out on the **dusty tracks and coastal roads** of Australia. Our owners are our greatest advocates, providing the **honest feedback** that ensures every Horizon is truly built for the **Australian lifestyle**.

Owners Stories

Always Supported

"The team goes out of their way to look after owners long after the keys are handed over. No question is ever too small, and the after-sales support is truly the best in the industry."

The Quinn Family

A Personal Journey

"Every bit of space in the Melaleuca is used so efficiently. It was the perfect companion for a solo trip around the "Big Lap" because it is incredibly easy to park and manoeuvre in any town."

Lynne T.

The Freedom to Roam

There is a unique confidence that comes with owning a Horizon. It is the knowledge that your home is as capable as you are, allowing you to find peace in the most remote corners of the country. Our owners often tell us that the best part of the journey is the freedom to simply stop, stay, and soak in the view.

Confidence to travel independently

*True independence means never having to compromise on comfort while you are **off the grid**. Whether you are navigating the rugged coastline or finding a quiet spot by the river, our builds are designed to give you **total self-sufficiency** with the choice of traditional gas or a completely gas-free living setup.*

5 Year Comprehensive Warranty 5 Years Roadside Assistance

Nationwide Service Network

Gain peace of mind knowing you have access to professional support across Australia, ensuring you are never alone on the road.

Built for the Long Haul

Our commitment to quality means your investment is protected by industry leading warranties and genuine manufacturer support.

Support for Life

From technical advice to travel tips, our team is dedicated to supporting your journey long after you leave the showroom.
